

LIGHT FIRE

With the **LIGHT FIRE**, the light is concentrated into a bundled beam. This directed energy is particularly suitable for the treatment of living beings.

For this purpose, the LIGHT FIRE must be directed towards the area to be treated. Flowing movements such as horizontal eights, circular or spiral movements support the effect considerably.

The LIGHT FIRE can also be used very well in acupuncture and acupuncture massage.

In rooms, that require light or cleaning, it is also possible to work with the LIGHT FIRE.

TECHNICAL DETAILS

Material: Glass

Size: Length 150 mm, Ø 34 mm
