

OCTARION

The **OCTARION** harmonizes the **negative influences of:**

- **mobile phones, wireless phones, WLAN etc.**
- **(directional) rays of radar stations**
- **mobile radio transmitters**
- **HAARP**

The personal sensitivity of the user is decisive when selecting the product. Our consultants are happy to assist you.

For all wireless devices use FOSTAC OMNI CHIP or ELECTRIC Plates (MINI, A6 or A5). The negative effects of the internal power network can be harmonized with ELECTRIC plates (A6, A5 or A4).

The OCTARION is not only suitable for industry and commerce, but also for places with a lot of public traffic in general, such as schools, kindergartens, hospitals, hotels, airports. In any place where there is stress from electrosmog, the OCTARION offers the possibility of optimal harmonization.

Additional costs for transportation are incurred due to size and weight.

TECHNICAL DETAILS

Material: Glass, socket made of granite
Size: 105 cm, socket 36 x 22 cm
Weight: approx. 54 kg net
