

RHO ROD MINI

The **RHO ROD MINI** supports the energetic balance of the user. It is suitable as a pendant and should only be worn during the day.

It bundles electric field lines from the vertical energy flow of the earth and transfers the DNA information contained therein to the information carriers in our body. The chakras are aligned, the grounding is improved. The negative influences of electro-smog, radon and other sources of radioactive radiation are harmonized on an energetic level.
