

WELLNESS BALANCER (FE)

The **WELLNESS BALANCER (FE)** is an innovative device in which the latest scientific findings and ancient spiritual knowledge are applied to improve the quality of life.

With this novel tool, imbalances in the human body system are corrected, among other things, by means of a balancing procedure via the bioenergy field.

The WELLNESS BALANCER (FE) detects the user's unique personal bioenergy field and filters out the background environmental disturbances. Unlike similar systems, the user is not treated with a standard frequency, but with an oscillation pattern that is individually aligned to him. This oscillation is in turn emitted into the user's bioenergy field by means of the pyramid and can be received within a radius of about 10 meters.

As an essential part of the energy distribution, the state-of-the-art hardware is housed in the pyramid shape. Each side of the pyramid has a sensory plate with a specific symbolism.

In the FOSTAC Edition (FE), the effect results from a total of six levels.

The pyramid is connected to a PC or notebook via a USB cable and has a harmonizing effect even without a computer connection. With the help of the supplied software, more than 40 specific themes can be selected (see reverse side), each of which runs for 1'618 sec. (golden ratio*) or 27 min.

* The golden ratio ($\phi = \varphi$) describes a «harmonic» division ratio, where the smaller part relates to the larger part as the larger part relates to the whole.
